

## CURRICULUM VITAE

### Peter T. Katzmarzyk, Ph.D.

Associate Executive Director for Population and Public Health Sciences  
Pennington Biomedical Research Center  
Louisiana State University  
6400 Perkins Road, Baton Rouge, Louisiana 70808  
Phone: (225) 763-2536; FAX: (225) 763-2927  
E-mail: Peter.Katzmarzyk@pbrc.edu

#### EDUCATION

- 1997                      Ph.D. Exercise Science, Michigan State University
- 1993                      M.Sc. Human Biology, University of Guelph
- 1991                      B.Sc. Human Kinetics, University of Guelph

#### ACADEMIC POSITIONS HELD

- 2014 -                      Marie Edana Corcoran Endowed Chair in Pediatric Obesity and Diabetes  
Pennington Biomedical Research Center  
Louisiana State University
- 2007-                      Professor and Associate Executive Director for Population and  
Public Health Sciences  
Pennington Biomedical Research Center  
Louisiana State University
- 2007-2013                      Louisiana Public Facilities Authority Endowed Chair  
Pennington Biomedical Research Center  
Louisiana State University
- 2007 - 2014                      Adjunct Professor  
School of Kinesiology and Health Studies, Queen's University
- 2002-07                      Associate Professor and Queen's National Scholar  
School of Kinesiology and Health Studies, Queen's University
- 2003-07                      Associate Professor  
Department of Community Health and Epidemiology  
Queen's University
- 2005-06                      Visiting Professor  
Department of Anthropology, University of Hawaii at Hilo
- 2001-02                      Associate Professor  
School of Kinesiology and Health Science, York University

1997-2001            Assistant Professor  
School of Kinesiology and Health Science, York University

1998                    Post-Doctoral Fellow  
Physical Activity Sciences Laboratory, Université Laval

### **ACADEMIC AWARDS AND HONORS**

2016                    Samuel Weiner Distinguished Lecturer, University of Manitoba  
2015                    Paffenbarger Tutorial Lecturer, American College of Sports Medicine  
2013                    Cecil J. Picard Award for Excellence in Education to Prevent Childhood  
Obesity, Louisiana Action for Healthy Kids  
2013                    Spirit of Exercise and Health Sciences Award, University of  
Massachusetts Boston  
2002-07                Queen's National Scholar, Queen's University  
2004                    Chancellor's Research Award, Queen's University  
2003                    American College of Sports Medicine New Investigator Award  
2002                    Canadian Society for Exercise Physiology Young Investigator Award  
1998                    FRSQ Post-doctoral Fellowship (declined)  
1997                    Outstanding Doctoral Student Award, Michigan State University  
1997                    Academic Excellence Award, Michigan State University  
1996-97                Wohlgamuth Research Fellowship, Michigan State University  
1996                    University Graduate Fellowship, Michigan State University  
1994                    University Fellowship, University of Texas at Austin  
1992                    Graduate Entrance Scholarship, University of Guelph  
1990                    John T. Powell Award for Academic Excellence, University of Guelph

### **PROFESSIONAL ASSOCIATIONS**

Fellow, American Heart Association (FAHA), 2012-present; Professional Member, 2008-2011  
Fellow, American College of Sports Medicine (FACSM), 2002-present; Member, 1996-2001  
Fellow, The Obesity Society (FTOS), 2013-present; Member, 2000-2012  
Fellow, Human Biology Association, 1993-present  
Member, Canadian Society for Exercise Physiology, 1997-present  
Member, International Society for Physical Activity and Health, 2009-present  
Member, American Evaluation Association, 2010-present  
Member, Canadian Association of Cardiac Rehabilitation, 2004-2007  
Member, Canadian Society for Epidemiology and Biostatistics, 2000-2007  
Member, American Association of Physical Anthropologists, 1993-2001

### **PROFESSIONAL DEVELOPMENT**

2007                    Management 1: New Managers Course. Schulich Executive Education  
Center, Schulich School of Business, York University, Toronto, ON

## PROFESSIONAL ACTIVITIES

- 2018 - Canadian 24-hour Movement Guidelines for Adults and Older Adults Consensus Panel
- 2017 - Obesity Committee, Council on Lifestyle and Cardiometabolic Health, American Heart Association
- 2013 - Chair, Research Advisory Committee, United States Report Card on Physical Activity and Health for Children and Youth, National Physical Activity Plan Alliance
- 2012 - Obesity Prevention & Treatment Ad Hoc Committee  
American College of Sports Medicine
- 2008 - Research Affiliate, Alberta Centre for Active Living
- 2016 - 2018 2018 U.S. Physical Activity Guidelines Advisory Committee,  
U.S. Department of Health and Human Services
- 2014 - 2017 Louisiana Obesity Prevention and Management Commission
- 2011 – 2017 Pediatrics Committee, Exercise is Medicine<sup>®</sup>,  
American College of Sports Medicine
- 2014 - 2016 Canadian 24-hour Movement Guidelines for Children and Youth  
Research Committee
- 2014 - 2015 Biorepository Task Force, Patient Centered Outcomes Research Institute
- 2013 - 2015 President's Council on Fitness, Sports and Nutrition Science Board
- 2013 - 2014 National Children's Study, Scientific and Coordinating Committee for  
Health Measurement
- 2009 - 2013 Physical Activity Committee, Council on Lifestyle and Cardiometabolic  
Health, American Heart Association
- 2008 - 2010 Parish Health Profiles Steering Committee,  
Louisiana Department of Health and Hospitals
- 2007 - 2012 Chair, Research Advisory Committee, Louisiana's Report Card on  
Physical Activity and Health for Children and Youth
- 2007 - 2012 Louisiana Council on Obesity Prevention and Management
- 2011 Faculty, Short Course on Current Research in Physical Activity among  
School Children and Adolescents, Bogota, Colombia, Oct., 2011
- 2009 - 2011 Chair, Physical Activity and Obesity Council,

International Society for Physical Activity and Health

- 2009 - 2010 Steering Committee, The Partnership Protocol: Principles and Approach for Successful Private/Not-for-Profit Partnerships in Physical Activity and Sport
- 2007 - 2009 Quality Measurement Committee, Louisiana Health Care Quality Forum; Chair, Population Health Measures Sub-Committee
- 2009 International Advisory Board, Canadian Society for Exercise Physiology Annual Meeting. Ideas Crossing Boundaries: From Elite Athletes to Patients with Chronic Disease, Vancouver, BC, November, 2009.
- 2008 Faculty, Canadian Fitness and Lifestyle Research Institute Physical Activity for Public Health Short Course, Banff, AB, September, 2008
- 2007 - 2009 Expert Advisory Committee, Canadian Health Measures Survey (CHMS)
- 2007 Lifestyle Sub-Committee, Canadian Hypertension Education Program
- 2006 - 2008 Chair, Physical Activity Task Force, International Association for the Study of Obesity (IASO)
- 2006 - 2007 Coordinating Committee, Advancing the Future of Physical Activity Measurement and Guidelines, Canadian Society for Exercise Physiology
- 2006 - 2007 Knowledge Translation Committee, Canadian Society for Exercise Physiology
- 2006 - 2007 Epidemiology Section Head, Canadian Obesity Network
- 2006 - 2007 Management Team and Executive Committee, Centre for Obesity Research and Education, Queen's University
- 2006 Healthy Eating and Active Living Advisory Group, Ontario Ministry of Health Promotion
- 2006 Faculty, Canadian Fitness and Lifestyle Research Institute Physical Activity for Public Health Short Course, Collingwood, ON, Sept., 2006
- 2006 Faculty, Canadian Obesity Network/Laval University Obesity Summer Boot Camp, July, 2006
- 2005, 2007, 2013 Research Advisory Team, *Active Healthy Kids Canada National Report Card on Physical Activity for Children and Youth*
- 2004 - 2006 Advisory Council, Coalition for Active Living (Canada)

- 2004 - 2007 Heart and Stroke Foundation of Canada, national spokesperson on issues related to physical activity, fitness and obesity
- 2003 - 2006 Member, Physical Activity Task Force, International Association for the Study of Obesity (IASO)
- 1999 - 2007 International Liaison Committee, Human Biology Association
- 2004 - 2006 Expert Committee, *Canadian Clinical Practice Guidelines for the Prevention and Management of Obesity*
- 2004 Ontario Chief Medical Officer of Health Annual Report Advisory Committee, *Healthy Weights, Healthy Lives*
- 2002 - 2004 Vice-President and Treasurer, Obesity Canada
- 2001 - 2004 Board of Directors, Obesity Canada

## EDITORIAL BOARDS

- 2015 - Editorial Board, *Pediatric Exercise Science*
- 2014 - Associate Editor, *Medicine and Science in Sports and Exercise*
- 2009 - Editorial Board, *Metabolic Syndrome and Related Disorders*
- 2005 - Editorial Board, *Pediatric Obesity*
- 2011 - 2017 Editorial Board, *International Journal of Obesity*
- 2007 - 2012 Editorial Board, *Journal of Physical Activity and Health*
- 2001 - 2007 Associate Editor, *Applied Physiology, Nutrition and Metabolism*
- 2002 - 2004 Associate Editor, *Exercise and Sport Sciences Reviews*

## PUBLICATIONS

### Refereed Papers

459. Staiano A.E., C.K. Martin, C.M. Champagne, J.R. Rood and P.T. Katzmarzyk. Sedentary time, physical activity, and adiposity in a longitudinal cohort of non-obese young adults. *American Journal of Clinical Nutrition* 2018; In Press: Accepted for Publication on June 26, 2018.
458. Gomes T.N., A. Nevill, P.T. Katzmarzyk, S. Pereira, M. Moura dos Santos, R. Buranarugsa, F. dos Santos, M. Souza, R. Chaves and J. Maia. Identifying the best weight-status index associated with metabolic risk in youth. *Scandinavian Journal of Medicine and Science in Sports* 2018; Advance Online Publication June 23, 2018.
457. Broyles S.T., E. Gollub, A. Tohme and P.T. Katzmarzyk. Improving health behaviors through community engagement and collective action: The Challenge for a Healthier Louisiana. *Health Promotion Practice* 2018; In Press: Accepted for Publication on June 16, 2018.
456. Pereira S., P.T. Katzmarzyk, T. Gomes, R. Elston and J. Maia. How consistent are genetic factors in explaining leisure-time physical activity and sport participation? The

Portuguese Healthy Families Study. *Twin Research and Human Genetics*. 2018; Advance Online Publication July 6, 2018.

455. Larouche R., E.F. Mire, K. Belanger, T.V. Barreira, J.-P. Chaput, M. Fogelholm, G. Hu, E.V. Lambert, C. Maher, J. Maia, T. Olds, V. Onywera, O.L. Sarmiento, M. Standage, C. Tudor-Locke, P.T. Katzmarzyk and M.S. Tremblay for the ISCOLE Research Group. Relationships between outdoor time, physical activity, sedentary behavior and body mass index in children: A 12-country study. *Pediatric Exercise Science* 2018; In Press: Accepted for Publication on June 11, 2018.
454. Katzmarzyk P.T., J. Most, L. Redman, J. Rood and E. Ravussin, Energy expenditure and substrate oxidation in White and African American young adults without obesity. *European Journal of Clinical Nutrition* 2018;72:920-922.
453. Barreira T.V., J.G. Redmond, T.D. Brutsaert, J.M. Schuna Jr., E.F. Mire, P.T. Katzmarzyk and C. Tudor-Locke. Can an automated sleep detection algorithm for waist worn accelerometry substitute sleep logs? *Applied Physiology, Nutrition and Metabolism* 2018; Advance Online Publication April 27, 2018.
452. Chaput J.-P., J.D. Barnes, M.S. Tremblay, M. Fogelholm, G. Hu, E.V. Lambert, C. Maher, J. Maia, T. Olds, V. Onywera, O.L. Sarmiento, M. Standage, C. Tudor-Locke and P.T. Katzmarzyk for the ISCOLE Research Group. Inequality in physical activity, sedentary behavior, sleep duration, and risk of obesity in children: A 12-country study. *Obesity Science and Practice* 2018;4:229-237.
451. Chaput J.-P., M.S. Tremblay, P.T. Katzmarzyk, M. Fogelholm, V. Mikkilä, G. Hu, E.V. Lambert, C. Maher, J. Maia, T. Olds, V. Onywera, O.L. Sarmiento, M. Standage, C. Tudor-Locke and A.G. LeBlanc for the ISCOLE Research Group. Outdoor time and dietary patterns in children around the world. *Journal of Public Health* 2018; Advance Online Publication April 19, 2018.
450. Brown D.E., P.T. Katzmarzyk, L.A. Gotshalk and L. Allen. Physical activity level and body composition in a multiethnic sample of school children in Hawaii. *Annals of Human Biology* 2018;45:244-248.
449. Wilkie H.J., M. Standage, F.B. Gillison, S.P. Cumming and P.T. Katzmarzyk. The home electronic media environment and parental safety concerns: Relationships with outdoor time after school and over the weekend among 9-11 year old children. *BMC Public Health* 2018;18:456.
448. Chaput J.-P., M.S. Tremblay, P.T. Katzmarzyk, M. Fogelholm, G. Hu, C. Maher, J. Maia, T. Olds, V. Onywera, O.L. Sarmiento, M. Standage, C. Tudor-Locke and H. Sampasa-Kanying for the ISCOLE Research Group. Sleep patterns and sugar-sweetened beverage consumption among children from around the world. *Public Health Nutrition* 2018;21:2385-2393.
447. Dumuid D., T.E. Stanford, Z. Pedišić, C. Maher, L.K. Lewis, J.A.M. Fernández, P.T. Katzmarzyk, J.-P. Chaput, M. Fogelholm, M. Standage, M.S. Tremblay and T. Olds. Adiposity and the isotemporal substitution of physical activity, sedentary time and sleep

- among school-aged children: A compositional data analysis approach. *BMC Public Health* 2018;18:311.
446. Katzmarzyk P.T., C.K. Martin, R.L. Newton, J.W. Apolzan, C.L. Arnold, T.C. Davis, K.D. Denstel, E. Mire, T.K. Thethi, P.J. Brantley, W.D. Johnson, V. Fonseca, J. Gugel, K.B. Kennedy, C.J. Lavie, E.G. Price-Haywood, D.F. Sarpong and B. Springgate. Promoting Successful Weight Loss in Primary Care in Louisiana (PROPEL): Rationale, design and baseline characteristics. *Contemporary Clinical Trials* 2018;67:1-10.
  445. Chaput J.-P., J.D. Barnes, M.S. Tremblay, M. Fogelholm, G. Hu, E.V. Lambert, C. Maher, J. Maia, T. Olds, V. Onywera, O.L. Sarmiento, M. Standage, C. Tudor-Locke and P.T. Katzmarzyk for the ISCOLE Research Group. Thresholds of physical activity associated with obesity by level of sedentary behavior in children. *Pediatric Obesity* 2018;13:450-457.
  444. Van Aller C., J. Lara, B. Stephan, L.M. Donnini, S. Heymsfield, P.T. Katzmarzyk, J. Wells, C. Prado and M. Siervo. Sarcopenic obesity and overall mortality: Results from the application of novel models of body composition phenotypes to the National Health and Nutrition Examination Survey 1999 – 2004. *Clinical Nutrition* 2018: Advance Online Publication February 15, 2018.
  443. Dumuid D., C. Maher, L.K. Lewis, T.E. Stanford, J.A.M. Fernández, J. Ratcliffe, P.T. Katzmarzyk, T.V. Barreira, J.-P. Chaput, M. Fogelholm, G. Hu, J. Maia, O.L. Sarmiento, M. Standage, M.S. Tremblay, C. Tudor-Locke and T. Olds. Human development index, children's health-related quality of life and movement behaviors: a compositional data analysis. *Quality of Life Research* 2018;27:1473-1482.
  442. Wilkie H.J., M. Standage, F.B. Gillison, S.P. Cumming and P.T. Katzmarzyk. Correlates of intensity-specific physical activity in 9-11 year old children: a multilevel analysis of UK data from the International Study of Childhood Obesity, Lifestyle and the Environment. *BMJ Open* 2018;8:e018373.
  441. Ferrari G., C. Pires, D. Sole, V. Matsudo, P.T. Katzmarzyk and M. Fisberg. Factors associated with objectively measured total sedentary time and screen time in children aged 9-11 years. *Jornal de Pediatria (Rio J)*. 2018; Advance Online Publication January 4, 2018.
  440. Silva D.A.S., J.-P. Chaput, P.T. Katzmarzyk, M. Fogelholm, G. Hu, C. Maher, T. Olds, V. Onywera, O.L. Sarmiento, M. Standage, C. Tudor-Locke and M.S. Tremblay. Physical education classes, physical activity, and sedentary behavior in children. *Medicine and Science in Sports and Exercise* 2018;50:995-1004.
  439. Lin Y., M.S. Tremblay, P.T. Katzmarzyk, M. Fogelholm, G. Hu, E.V. Lambert, C. Maher, J. Maia, T. Olds, O.L. Sarmiento, M. Standage, C. Tudor-Locke and J.-P. Chaput. Temporal and bi-directional associations between sleep duration and physical activity/sedentary time in children: an international comparison. *Preventive Medicine* 2018;111:436-441.
  438. Manyanga T., J.D. Barnes, M.S. Tremblay, P.T. Katzmarzyk, S.T. Broyles, T.V. Barreira, M. Fogelholm, G. Hu, C. Maher, J. Maia, T. Olds, O.L. Sarmiento, M. Standage, C.

- Tudor-Locke and J.-P. Chaput for the ISCOLE Research Group. No evidence for an epidemiological transition in sleep patterns among children: a 12-country study. *Sleep Health* 2018;4:87-95.
437. Katzmarzyk P.T., S.T. Broyles, J.-P. Chaput, M. Fogelholm, G. Hu, E.V. Lambert, C. Maher, J. Maia, T. Olds, V. Onywera, O.L. Sarmiento, M. Standage, M.S. Tremblay, and C. Tudor-Locke for the ISCOLE Research Group. Sources of variability in childhood obesity indicators and related behaviors. *International Journal of Obesity and Related Disorders* 2018;42:108-110.
436. Dumuid D., T.E. Stanford, J.A. Martin-Fernández, Z. Pedisic, C. Maher, L.K. Lewis, K. Hron, P.T. Katzmarzyk, J.-P. Chaput, M. Fogelholm, G. Hu, E.V. Lambert, J. Maia, O.L. Sarmiento, M. Standage, T.V. Barreira, S.T. Broyles, C. Tudor-Locke, M.S. Tremblay and T. Olds. Compositional data analysis for physical activity, sedentary time and sleep research. *Statistical Methods in Medical Research* 2018; Advance Online Publication January 1, 2017.
435. Dumuid D., T.S. Olds, L.K. Lewis, J.A. Martin-Fernandez, T.V. Barreira, S. Broyles, J.-P. Chaput, M. Fogelholm, G. Hu, R. Kuriyan, A. Kurpad, E.V. Lambert, J. Maia, V. Matsudo, V. Onywera, O.L. Sarmiento, M. Standage, M.S. Tremblay, C. Tudor-Locke, P. Zhao, P.T. Katzmarzyk and C. Maher for the ISCOLE Research Group. The adiposity of children is associated with their lifestyle behaviours: a cluster analysis of school-aged children from 12 nations. *Pediatric Obesity* 2018;13:111–119.
434. Ferrari G., T.L. Araújo, L.C. Oliveira, V. Matsudo, E. Mire, T. Barreira, C. Tudor-Locke and P.T. Katzmarzyk. Accelerometer-determined peak cadence and weight status in children from São Caetano do Sul, Brazil. *Ciência & Saúde Coletiva* 2017;22:3689-3698.

## RESEARCH SUPPORT

### Ongoing

1UG1HD090967-01                      Hsia, Daniel    09/21/2016 – 08/31/2020  
NICHHD.

Development of a Pediatric Clinical Trials Consortium to Increase Research Exposure for Children and Adolescents in Louisiana.

This project plans to establish a pediatric clinical trials site in Louisiana as part of the IDeA States Pediatric Clinical Trials Network (UG1) to address this critical need for pediatric clinical trials in this State. The overall goal is to leverage the existing clinical research expertise of PBRC in obesity and maternal-fetal health with the clinical expertise and experience of Tulane University School of Medicine in asthma, neurodevelopment, and birth outcomes to establish a uniquely skilled collaborative group able to engage, implement, and translate a range of pediatric clinical trials.

\$1,469,006 in total costs.

Role on Project: Co-investigator

2P30DK072476-11A1                      Ravussin, Eric    05/01/2016 – 04/30/2021  
NIDDK.

Pennington/Louisiana Nutrition and Obesity Research Center (NORC).

The Pennington Biomedical (PBRC)/Louisiana NORC was initially established in 2005 to facilitate and promote collaborative and multi-disciplinary interactions to foster new research ideas and enhance the translation of basic nutritional research findings into the clinical arena and ultimately into practical application. During this NORC cycle, we plan to progressively develop research teams focusing on 3 critical periods of the life cycle: 1) Maternal/Infant nutritional status and metabolic consequences; 2) Pediatric and Adulthood Obesity and metabolic health; 3) Nutritional status at older age to preserve physical and cognitive functionality. These three research foci will lead to the formation of Research Teams to address big research questions from the basic science level, to clinical investigation and finally to the population in a translational way.

\$5,454,635 in total costs.

Role on Project: Co-investigator and Associate Director

NEN-1508-32257                                      Shi, Lizheng    02/01/2016 – 01/31/2021  
CDC/NIDDK/PCORI.

Impact of a CMS Reimbursement Policy Supporting Care Coordination in Louisiana.

The overall goal of this project is to improve the care coordination in diabetes management, which remains a major public health concern in the United States, especially in Louisiana where mortality and morbidity from diabetes and cardiovascular disease are higher than other regions of the US. The specific aim will be to examine the impact of the Medicare payment for non-face-to-face care coordination on health outcomes and healthcare utilizations among diverse populations with diabetes in Louisiana. The project will also identify critical elements at patient, provider, and organization levels that will enhance the reach, effectiveness, adoption, implementation, and maintenance of chronic care management in diabetes.  
\$2,249,676 in total costs (\$335,595 in total costs for Pennington Biomedical site)  
Role on Project: Co-investigator on Pennington Biomedical site

USDA 3092-51000-056-04A      Staiano, Amanda      04/01/2016 – 03/31/2020  
United States Department of Agriculture (USDA).  
Effects of obesity on physical activity, sedentary behavior, and cardiometabolic health in White and African American children and adolescents.  
The proposed study will establish a prospective pediatric cohort to identify intervention targets based on the location, timing, barriers, and facilitators of current physical activity and sedentary behavior in a child's day. The project will be a prospective examination of 340 African American and White girls and boys aged 10 to 16 years, including 50% who are classified as severely obese. We will use state-of-the-art technology including accelerometry to quantify physical activity, magnetic resonance imaging to quantify fat accumulation, and geographic position system and ecological momentary assessment to identify environmental and socio-emotional barriers and facilitators.  
\$1,100,000 in total costs.  
Role on Project: Co-investigator

# OB-1402-10977      Katzmarzyk, Peter      01/01/2015 – 12/31/2019  
Patient Centered Outcomes Research Institute.  
The Louisiana Trial to Reduce Obesity in Primary Care.  
The primary aim of this study is to test the effectiveness of a 24 month, patient-centered, pragmatic and scalable obesity treatment program delivered within primary care in an underserved population. We will randomly assign 18 primary care clinics serving low income populations with a high percentage of African Americans throughout Louisiana to either a comprehensive obesity treatment program or to a usual care group that receives the current obesity treatment under Medicaid/Medicare.  
\$9,854,768 in total costs.  
Role on Project: Principal Investigator

PBRC 195969-2      Katzmarzyk, Peter      08/21/2014 – 08/31/2018  
Patient Centered Outcomes Research Institute.  
Louisiana Clinical Data Research Network (LA CDRN): Phases I & II.  
The objective of this sub-contract from the Louisiana Public Health Institute is to participate in the development of the Louisiana Clinical Data Research Network (LA CDRN). During his phase of the project, the LPHI, Pennington Biomedical Research Center, Tulane University, and Ochsner Health System will work together to build an infrastructure for clinical research that may add new partners from across the state and thereby benefit millions of patients in Louisiana. Additionally, the team will advance the capacity to conduct efficient clinical research on two highly prevalent health conditions, obesity and diabetes, along with multiple associated comorbidities, sickle cell disease, and some rare cancers.  
\$843,512 in total costs for Pennington Biomedical site.

Role on Project: Co-Principal Investigator (Pennington Biomedical site)

U54 GM10494                      Kirwan, John                      08/15/2012 - 06/30/2022  
National Institutes of Health.

As a primary objective, the Louisiana Clinical and Translational Science (LA CaTS) Center builds upon the structure of the COBREs and INBREs of the state. The primary collaborating institutions are LSU Health Sciences Center in New Orleans, Tulane University Health Sciences Center and LSU Health Care Services Division (hospitals and clinics). The Specific Aims are: 1) Create a collaborative infrastructure for clinical and translational research both within and across participating institutions; 2) Increase the critical mass of investigators performing clinical and translational research; and 3) Improve and sustain bi-directional relationships with our communities.

\$40 M in total costs.

Role on Project: Co-investigator and Co-director of Pilot Projects Program

PBRF                      Katzmarzyk, Peter                      10/01/2013 – 09/30/2018

Our Lady of the Lake Regional Medical Center & Pennington Biomedical Research Foundation. Marie Edana Corcoran Endowed Chair in Pediatric Obesity and Diabetes.

Funds are provided by the Endowed Chair and the Foundation for salary support and research expenses in the area of interest of the Chair Recipient.

\$250,000 in total costs.

Role on Project: Chair Recipient

### Pending

National Institutes of Health.

Improving Weight Loss in Primary Care Patients with Prediabetes.

The goal of this project is to test the effectiveness of an innovative 24-month pragmatic weight-loss approach to the prevention of type 2 diabetes (T2D) in patients with prediabetes. We will use a collaborative care model that connects patients and primary care practitioners (PCPs) with a non-PCP health coach embedded in the clinic who delivers care remotely to patients through the patient portal of an electronic medical record (EMR) system.

\$3,704,306 in total costs.

Role on Project: Principal Investigator

### Completed

DHH-055157                      Katzmarzyk, Peter                      05/01/2010 – 06/30/2018  
Louisiana Department of Health and Hospitals.

External Evaluation of the Louisiana Tobacco Control Program, Community Transformation Grant and Coordinated Chronic Disease Prevention and Health Promotion Program.

The objective of this contract is to develop and implement an evaluation program for the Louisiana Tobacco Control program, the Coordinated Chronic Disease Prevention and Health Promotion program, and the Community Transformation Grant program at Department of Health and Hospitals.

\$1,644,026 in total costs.

Role on Project: Principal Investigator

CIHR 311513                      Lear, Scott                      02/01/2014 – 01/31/2016

Canadian Institutes for Health Research.

Utility of a culturally relevant or a standard exercise program to reduce visceral adipose tissue and cardiovascular disease risk in abdominally obese South Asian women. The main objective of this study is to evaluate standard aerobic exercise versus yoga versus control situation in South Asians with changes in visceral adipose tissue being assessed by CT scanning.

\$195,474 in direct costs.

Role on Project: Co-investigator

1 U54 GM10494-01                      Katzmarzyk, Peter                      11/01/2013 – 10/31/2014  
NIH/NIGMS Louisiana Clinical and Translational Science Center (LA CaTS) Pilot Grants Program.

Community-wide Health Assessment for West Carroll Parish.

The objective of this project is to conduct a baseline health assessment of chronic disease, risk factors, and risk factor knowledge in West Carroll Parish. The community health assessment will include two components: 1) a population health phone survey conducted by the LSU Public Policy Research Lab, and 2) community health screenings conducted at the LSU/SU AgCenter Research and Extension Site in Oak Grove, Louisiana.

\$31,057 in total costs.

Role: Principal Investigator

PBRC 2012-366                      Katzmarzyk, Peter                      07/01/2011 – 06/30/2015  
Blue Cross and Blue Shield Foundation of Louisiana.

Administration and Evaluation of Challenge for a Healthier Louisiana Program.

The objective of this project is to develop the request for applications and pre-application procedures for Blue Cross' Challenge for a Healthier Louisiana project. This will include an extensive commitment to the project from pre-planning through completion and evaluation and providing the independent expertise to expand the credibility and impact of the program.

\$1,392,000 in total costs.

Role on Project: Principal Investigator

PBRC 2012-146                      Katzmarzyk, Peter                      11/01/2011 - 06/30/2015  
Health Care Services Division, Louisiana State University System.

Louisiana State University Improving Clinical Outcomes Network (LSU ICON).

The objective of this project is to improve the care of patients in Louisiana. Led by the Pennington Biomedical Research Center, LSU ICON represents the joint efforts of several of the Louisiana State University academic health science and health care delivery institutions.

\$11,149,754 in total costs.

Role on Project: Principal Investigator

PBRC 2010-352                      Katzmarzyk, Peter; Church, Tim                      07/01/2010 – 12/31/2014  
The Coca-Cola Company.

International Study of Childhood Obesity, Lifestyle and the Environment (ISCOLE).

This is a global study of childhood lifestyle, the environment and obesity that was conducted in 12 countries from all regions of the world.

\$6,426,308 in total costs.

Role on Project: Principal Investigator

ARS/USDA 58-6251-8-038                      Katzmarzyk, Peter                      09/30/2008 – 09/14/2013  
United States Department of Agriculture (USDA).

Delta Obesity Prevention Research Unit: Steps Toward Adapting Physical Activity and Dietary Guidelines for the Delta Population.

The objective of this cooperative research project is to develop adapted physical activity guidelines for the Lower Mississippi Delta population in order to facilitate their adoption as a means of addressing the excessive prevalence of obesity in the region.

\$1,533,000 in total costs.

Role on Project: Principal Investigator

AHA 11GRNT7750027                      Broyles, Stephanie                      07/01/2011 – 06/30/2013  
American Heart Association.

Neighborhood Effects on Markers of Early Cardiovascular Risk in Children and Adolescents.

The objective of this study was to evaluate whether the physical and social characteristics of a child's neighborhood environment are associated with markers of early CVD risk, and whether the relationship between neighborhood environment and markers of early CVD risk varies between children of different racial/ethnic backgrounds.

\$164,640 in total costs.

Role on Project: Co-Investigator

PBRF    Katzmarzyk, Peter    08/01/2007 – 09/30/2013  
Louisiana Public Facilities Authority and Pennington Biomedical Research Foundation.

Louisiana Public Facilities Authority Endowed Chair in Nutrition.

Funds are provided by the Endowed Chair and the Foundation for salary support and research expenses in the area of interest of the Chair Recipient.

\$300,000 in total costs.

Role on Project: Chair Recipient

1RC1DK086881-01                      Katzmarzyk, Peter    09/30/2009 – 08/31/2012  
NIH (NIDDK).

Anthropometric Assessment of Abdominal Obesity & Health Risk in Children and Adolescents. This study determined the most appropriate measures of central obesity for the assessment of metabolic risk in children and adolescents.

\$997,261 in total costs.

Role on Project: Principal Investigator

DHH-054938                                      Katzmarzyk, Peter    07/01/2008 - 06/30/2012  
Louisiana Department of Health and Hospitals.

Childhood Obesity Public Health Conference and Louisiana's Report Card on Physical Activity and Health in Children and Youth.

The objective of this contract was to develop and disseminate Louisiana's Report Card on Physical Activity and Health in Children and Youth and to host the Pennington Biomedical Research Center's Annual Childhood Obesity Public Health Conference.

\$105,000 in total costs.

Role on Project: Principal Investigator

103460-044                                      Janssen, Ian; Katzmarzyk, Peter    03/01/2007 - 02/28/2012  
International Development Research Centre of Canada (IDRC).

Unraveling the Emerging Childhood Obesity Epidemic in Mexico: The Nutrition Transition and the Double-edged Sword.

The major goal of this multi-national project was to develop and enhance research capacity in childhood obesity in Mexico, within the context of the nutrition transition.

International Development Research Centre of Canada (IDRC) Development Grant  
Unraveling the Emerging Childhood Obesity Epidemic in Mexico: The Nutrition Transition and the Double-edged Sword.

The purpose of this project was to develop a full proposal for the Teasdale-Corti Team Grant competition which lead to the development of a research collaboration with University of Guadalajara.

\$15,000 in direct costs.

Role on Project: Co-Principal Investigator

Tranmer, Joan

07/01/2006 – 06/31/2007

Canadian Institutes of Health Research (CIHR)

Work and Home Environment, Metabolic Risk Factors for Cardiovascular Disease and Health-related Quality of Life in Female Hospital Workers: A Prospective Study.

The purpose of this project was to assess the health of a nurse population and examine relationships among physical activity, obesity and metabolic syndrome.

\$92,682 in direct costs.

Role on Project: Co-investigator

Katzmarzyk, Peter

01/01/2004 – 01/30/2004

Canadian Institutes of Health Research (CIHR) Development Grant

Obesity, Environment and the Modification of Health Risk: The Canadian Heart Health Surveys Longitudinal Follow-up Study.

The purpose of this development grant was to develop a full proposal for a New Emerging Team (NET) grant to link the 1986-92 Canadian Heart Health Surveys to the Canadian Mortality Database to create a longitudinal cohort.

\$5,000 in direct costs.

Role on Project: Principal Investigator

Katzmarzyk, Peter

03/01/2003 – 03/31-2003

Canadian Institutes of Health Research (CIHR) Workshop Grant

Obesity and Mortality risk: Revisiting the Canadian Heart Health Surveys.

The purpose of this workshop was to solicit interest from investigators from across Canada to discuss the feasibility of conducting a follow-up study of the Canadian Heart Health Surveys and to develop a framework of action towards this long-term goal.

\$3,634 in direct costs.

Role on Project: Principal Investigator

Ross, Robert

01/01/2002 – 12/31/2002

Canadian Institutes of Health Research (CIHR) Development Grant

Prevention and Reduction of Obesity Through Active Living (PROACTIVE): An Effectiveness Trial.

This purpose of this development grant was to develop a New Emerging Team (NET) grant proposal to study the effectiveness of a physical activity intervention delivered in primary care.

\$4,700 in direct costs.

Role on Project: Co-investigator

T4946

Katzmarzyk, Peter

07/01/2002 – 06/30/2005

Heart and Stroke Foundation of Canada

Obesity, Gender and Future Coronary Heart Disease Risk in Canada.

The purpose of this project was to examine the relationships among obesity, central adiposity and cardiovascular disease risk in Canada, with particular attention to gender differences.

\$75,000 in direct costs.

Role on Project: Principal Investigator

839-2000-1032

Craig, Cora

04/01/2001 – 03/31/2004

Social Sciences and Humanities Research Council

Neighborhood and Individual-level Determinants of Inequities in Physical Activity and Health: 20 Year Follow-up of the Canada Fitness Survey Cohort.

The primary aim of this project was to establish an interdisciplinary network of researchers and policy-makers interested in conducting and integrating research the social determinants of health, and physical activity as a health outcome and determinant.

\$621,997 in direct costs.

Role on Project: Co-Investigator

Katzmarzyk, Peter

07/01/2000 – 06/30/2002

Heart and Stroke Foundation of Canada.

Genetics of Blood Pressure and Body Fatness in Canada: Cross-Trait and Longitudinal Analyses.

The purpose of this project was to examine the shared sources of variability in body fatness, body fat distribution and blood pressure in addition to the heritability of changes in these risk factors over time in the Canadian population.

\$46,000 in direct costs.

Role on Project: Principal Investigator

Katzmarzyk Peter

01/01/2000 – 12/31/2000

Canadian Society for Exercise Physiology & Fitness and Active Living Unit, Health Canada

Economic Cost of Physical Inactivity in Canada.

The purpose of this funding was to support analyses of the economic burden of physical inactivity in the Canadian population.

\$4,140 in direct costs.

Role on Project: Principal Investigator

Katzmarzyk, Peter

03/14/2000 – 12/31/2000

York University Academic Initiatives Grant

Prospective Study of Physical activity and Fitness on Morbidity and Mortality in Canada.

The purpose of this special initiative grant was to support the development of background materials for the initiation of a prospective cohort study of physical activity and fitness.

\$7,000 in direct costs.

Role on Project: Principal Investigator

Katzmarzyk, Peter

01/01/1999 – 12/31/1999

Canadian Society for Exercise Physiology Seed Grant

Prospective Study of Physical Activity and Fitness on Morbidity and Mortality in Canada.

The purpose of this seed grant was to support the development of background materials for the initiation of a prospective cohort study of physical activity and fitness.

\$4,080 in direct costs.

Role on Project: Principal Investigator

Katzmarzyk, Peter

01/01/1998 – 12/31/1998

American College of Sports Medicine Foundation, Polar Research Grant on Controlled Heart Rate Zone Exercise

Tracking of Physical Activity and Risk Factor Modification.

The purpose of this grant was to utilize data from the Quebec Family Study to determine long-term changes in physical activity and cardiovascular diseases risk factors in the transition from childhood through adolescence into adulthood.

\$13,425 in direct costs.

Role on Project: Principal Investigator

#### **POST-DOCTORAL FELLOWS SUPERVISED**

Samaah Sullivan (2015-2016) *Neighborhood environmental effects on physical activity and obesity in children*. Pennington Biomedical Research Center, Louisiana State University System. Current Position: Post-doctoral Fellow, Emory University.

Tiago Barreira (2010-2014) *Objective assessment of physical activity and sedentary behavior*. Pennington Biomedical Research Center, Louisiana State University System. Current Position: Assistant Professor, Syracuse University.

Amanda Exner Staiano (2011-2013) *Depot-specific adiposity and cardiometabolic risk factors in children and adolescents*. Pennington Biomedical Research Center, Louisiana State University System. Funded by NIH T32: Genes to Man. Current Position: Assistant Professor, Pennington Biomedical Research Center.

Deirdre Harrington (2010-2013) *Physical activity, nutrition and obesity intervention research*. Pennington Biomedical Research Center, Louisiana State University System. Current Position: Lecturer, Diabetes Research Centre, University of Leicester.

Sarah Camhi (2008-2010) *Cardiometabolic risk factor clustering in children and adults*. Pennington Biomedical Research Center, Louisiana State University System. Current Position: Associate Professor, University of Massachusetts Boston.

Susan Sisson (2007-2009) *Public health impact of physical inactivity*. Pennington Biomedical Research Center, Louisiana State University System. Current Position: Associate Professor, University of Oklahoma Health Sciences Center.

Susan Brien (2004-2006) *Canadian Heart Health Surveys Research Team*. School of Kinesiology and Health Studies, Queen's University. Funded by Canadian Institutes for Health

Research (CIHR) and Heart and Stroke Foundation of Canada. Current Position: Director of Public Reporting of Health System Performance, Health Quality Ontario.

Ian Janssen (2003-2004) *Physical activity, nutrition and obesity in children and adolescents*. Department of Community Health and Epidemiology, Queen's University. Funded by Canadian Institutes for Health Research (CIHR), Institute of Aging. Current Position: Professor and Canada Research Chair in Physical Activity and Obesity, Queen's University.

Joseph Baker (2003-2004) *Physical activity and the lifetime occurrence of injuries in the Canadian Armed Forces*. School of Kinesiology and Health Studies, Queen's University. Funded by the Canadian Forces Personnel Support Agency. Current Position: Associate Professor, York University.

## **GRADUATE STUDENTS SUPERVISED**

Sara Pereira (Ph.D. in progress). *Stability and variability in daily physical activity*. Department of Sport, University of Porto, Porto, Portugal (Co-supervisor with José Maia).

Thayse Natacha Gomes (Ph.D. 2015) *Unravelling the relationship code in ISCOLE Portuguese childrens physical activity and sedentariness levels and patterns and obesity*. Department of Sport, University of Porto, Porto, Portugal (Co-supervisor with José Maia).

Fernanda Santos (Ph.D. 2014) *Environmental effects on growth, biological maturation, physical activity, health-related physical fitness and metabolic risk: Cross-cultural study in Portugal and Mozambique*. Department of Sport, University of Porto, Porto, Portugal (Co-supervisor with José Maia).

Daniel Santos (Ph.D. 2013) *Physical activity, metabolic syndrome indicators and body composition interactions in Portuguese nuclear families*. Department of Sport, University of Porto, Porto, Portugal (Co-supervisor with José Maia).

Shirley Bryan (Ph.D. 2009) *Epidemiology and temporal trends in physical activity in Canada*. School of Kinesiology and Health Studies, Queen's University.

Caitlin Mason (Ph.D. 2009) *Anthropometric markers of health risk*. School of Kinesiology and Health Studies, Queen's University. Funded by the Canadian Institutes for Health Research.

Chris Ardern (Ph.D. 2006) *Cardiovascular risk factor screening: Identifying targets for therapeutic lifestyle change*. School of Physical and Health Education, Queen's University. Funded by the Heart and Stroke Foundation of Canada and the Canadian Institutes for Health Research.

Caitlin Mason (M.Sc. 2005) *Identifying persons in need of weight-loss treatment: Evaluation of potential treatment algorithms*. School of Physical and Health Education, Queen's University. Funded by the Heart and Stroke Foundation of Ontario.

Chris Ardern (M.Sc. 2002) *The role of obesity screening and health risk in Canadians: Applications of the National Cholesterol Education Program Adult Treatment Panel 3 guidelines*. School of Kinesiology and Health Science, York University.

Marny Bruce (M.Sc. 2002) *Physical activity, fitness and health: Leisure-time physical activity trends in Canada from 1981 to 1998 and the prospective prediction of health status from health-related physical fitness*. School of Kinesiology and Health Science, York University.

Melanie Hunt (M.Sc. 2001) *Familial resemblance of seven-year changes in human adiposity*. School of Kinesiology and Health Science, York University.

Michelle Fortier (M.Sc. 2000) *Physical activity, musculoskeletal fitness and weight gain in the Canadian population*. School of Kinesiology and Health Science, York University.

Peter Campbell (M.Sc. 2000) *Tracking of physical activity, submaximal aerobic power and adiposity phenotypes from childhood to adulthood*. School of Kinesiology and Health Science, York University.

Laurinda Kwan (M.A. 1999) *Hostility, anger suppression and behavioural risk factors for coronary artery disease*. School of Kinesiology and Health Science, York University.

### **VISITING GRADUATE STUDENTS AND POST-DOCTORAL FELLOWS**

Gerson Ferrari (April-November, 2014). *Analyses from the Brazilian site of the International Study of Childhood Obesity, Lifestyle and the Environment (ISCOLE)*. Doctoral student visiting Pennington Biomedical Research Center from Center for Physical Fitness Laboratory Studies of São Caetano do Sul (CELAFISCS), São Caetano do Sul, Brazil.

Carol Maher (May-July, 2012). *Epidemiological research in sedentary behavior*. Post-doctoral fellow visiting Pennington Biomedical Research Center from University of South Australia, Adelaide, Australia.

Ruth Sullivan (January-December 2009). *Errors in self-reported body mass index according to differences in waist circumference*. Doctoral student visiting Pennington Biomedical Research Center from Department of Epidemiology and Population Health, London School of Hygiene and Tropical Medicine, London, UK.

### **GRADUATE STUDENT SUPERVISORY COMMITTEES**

Silvia Gonzalez (Ph.D.; In Progress) *Indicators of physical activity and sedentary behaviours among Colombian children and adolescents*. University of Ottawa.

Taru Manyanga (Ph.D.; In Progress) *Relationships between lifestyle behaviours and obesity in Zimbabwean children: A search to understand lifestyle transitions in a developing country*. University of Ottawa.

Maura Kepper (Ph.D. 2016). *Constraining outdoor play reduces physical activity and promotes obesity and cardiovascular disease*. School of Public Health, Louisiana State University Health Sciences Center.

Iris Lesser (Ph.D. 2015) *The role of cardiorespiratory fitness and the effectiveness of exercise in altering visceral adipose tissue and cardio-metabolic risk factors in post-menopausal South Asian women*. Department of Biomedical Physiology and Kinesiology, Simon Fraser University.

Michael Ryan Richardson (M.S. 2014) *Gender differences in high sensitivity C-reactive protein and self-reported muscle strengthening activity among US adults*. University of Northern Florida.

Korosh Madani (Ph.D. 2012) *Metabolic syndrome in Canada*. Department of Community Health and Epidemiology, University of Saskatchewan.

Theodora Pouliou (Ph.D. 2009) *Obesity: Understanding the individual, socio-economic and environmental determinants*. School of Geography and Earth Sciences. McMaster University.

Lea Bond (M.Sc. 2005) *Hormone dynamic index in girls associated is associated with diet and physical activity*. Department of Biology, Queen's University.

Tracey Weissgerber (M.Sc. 2004) *Physiological adaptations in early human pregnancy*. School of Physical and Health Education, Queen's University.

Meghan Watts (M.Sc. 2004) *Abdominal adiposity, skeletal muscle composition, liver fat, and insulin resistance in abdominally obese men*. School of Physical and Health Education, Queen's University.

Suzu Wong (M.Sc. 2003) *Cardiorespiratory fitness is associated with lower visceral adiposity independent of body mass index*. School of Physical and Health Education, Queen's University.

Nicole Glenn (M.Sc. 2003) *Effects of prolonged maternal exercise on fetal well-being*. School of Physical and Health Education, Queen's University.

Stacey Pollock (M.A. 2000) *Type I diabetes mellitus, exercise, and disordered eating*. School of Kinesiology and Health Science, York University.

Joe Gordon (M.Sc. 2000) *Effect of chronic stimulation on mitochondria transcription factor A expression and import in skeletal muscle*. School of Kinesiology and Health Science, York University.

Todd Garlie (Ph.D. 2000) *Secular changes in stature, mass, and body mass index in Canadian children*. Department of Anthropology, McMaster University.

Nancy Payne (M.Sc. 1999) *Musculoskeletal fitness: Assessment and health implications*. School of Kinesiology and Health Science, York University.

#### **ADDITIONAL GRADUATE STUDENT THESIS EXAMINATION COMMITTEES**

Dustin Kehler (Ph.D. 2017) *The impact of sedentary and physical activity behavior on frailty in middle-aged and older adults*. University of Manitoba, Winnipeg, Manitoba.

Jaana Kari (Ph.D. 2017) *Lifelong physical activity and long-term labor market outcomes*. University of Jyväskylä, Jyväskylä, Finland.

Christy Bigney (Ph.D. 2016) *Understanding physicians' perceptions and practices regarding childhood overweight and obesity in New Brunswick*. University of New Brunswick, Fredericton, Canada.

Claire Seybold (M.Sc. 2011) *Obesity, physical activity and inflammation: Examining the development of ischemic heart disease among Nova Scotians*. Dalhousie University, Halifax, Canada.

Verity Cleland (Ph.D. 2007) *The importance of physical activity and fitness in maintaining a healthy weight from childhood into adulthood*. Deakin University, Victoria, Australia.

Andrew Mente (Ph.D. 2007) *High urinary calcium excretion and familial aggregation of hypertension, kidney stone disease, obesity, excessive weight gain and type 2 diabetes in patients with calcareous stones*. Department of Public Health Sciences, University of Toronto.

Kathleen McMillan (M.Sc. 2006) *Independent associations between liver fat, visceral adipose tissue and metabolic risk factors in men*. School of Kinesiology and Health Studies, Queen's University.

Alison Kirby (M.A. 2005) *Perceived community resources and physical activity involvement in a Northern-rural, Aboriginal community*. School of Physical and Health Education, Queen's University.

Chuwen Huang (M.Sc. 2004) *Novel cardiac Troponin I markers, their diagnostic and prognostic values and their associations with established risk factors for ischemic heart disease*. Department of Community Health and Epidemiology, Queen's University.

Martin Shoichet (M.Sc. 2004) *The role of extracellular matrix degrading enzyme systems in the process of antihypertensive-induced vascular structural regression (Chair)*. Department of Pharmacology and Toxicology, Queen's University.

Meghan Watts (M.Sc. 2004) *Abdominal adiposity, skeletal muscle composition, liver fat, and insulin resistance in abdominally obese men*. School of Physical and Health Education, Queen's University.

Benjamin Taylor (M.Sc. 2004) *A longitudinal study of the relationship between obesity and depression*. Department of Community Health and Epidemiology. Queen's University.

Kyra Pyke (M.Sc. 2003) *The new non-invasive technique to investigate endothelial function in humans*. School of Physical and Health Education, Queen's University.

Nicole Glenn (M.Sc. 2003) *Effects of prolonged maternal exercise on fetal well-being*. School of Physical and Health Education, Queen's University.

Dennis Jensen (M.Sc. 2003) *Chemoreflex control of breathing in healthy humans: gender and time-of-day effects*. School of Physical and Health Education, Queen's University.

Sarah Charlesworth (M.Sc. 2002) *The effects of human pregnancy on physiological responses to prolonged exercise*. School of Physical and Health Education, Queen's University.

Shaelyn Strachan (M.A. 2001) *Sensitivity to reward: A factor in overeating and overweight*. School of Kinesiology and Health Science, York University.

Susan Pollock (M.Sc. 2000) *Habitual physical activity and the association with disease severity and exercise capacity in cystic fibrosis: A pilot study*. Department of Community Health, University of Toronto.

Stacey Pollock (M.A. 2000) *Type 1 diabetes mellitus, exercise, and disordered eating*. School of Kinesiology and Health Science, York University.

Joe Gordon (M.Sc. 2000) *Effect of chronic stimulation on mitochondria transcription factor A expression and import in skeletal muscle*. School of Kinesiology and Health Science, York University.

Sharon Creelman (M.KINE. 2000) *Sport law and the coach*. School of Kinesiology and Health Science, York University.

Todd Garlie (Ph.D. 2000) *Secular changes in stature, mass, and body mass index in Canadian children*. Department of Anthropology, McMaster University.

Nancy Payne (M.Sc. 1999) *Musculoskeletal fitness: Assessment and health implications*. School of Kinesiology and Health Science, York University.

Ping Ye (Ph.D. 1999) *Cardiorespiratory endurance, body composition, blood pressure, and plasma insulin: Responses to training and role of selected candidate genes*. Division of Kinesiology, Laval University.

Liat Ben-Ze'ev (M.Sc. 1999) *Biomedical implications of exposure to environmental tobacco smoke*. Department of Biology, York University.

Patricia Escobar (M.Sc. 1999) *Fiber type-specific effect of contractile activity on HSP70 Expression*. School of Kinesiology and Health Science, York University.

Geoffrey Easey (M.A. 1999) *Impulsivity, alcohol use, and risky sexual behaviours*. School of Kinesiology and Health Science, York University.

#### **ADDITIONAL GRADUATE STUDENT COMPREHENSIVE EXAMINATION COMMITTEES**

Amy Mark (PhD) School of Kinesiology and Health Studies, Queen's University, 2007.

Theodora Pouliou (Ph.D.) School of Geography and Earth Sciences. McMaster University, 2006.

Jennifer Kuk (Ph.D.) School of Physical and Health Education, Queen's University, 2005.

Jennifer Robertson-Wilson (Ph.D.) School of Physical and Health Education, Queen's University, 2005.
