

# Pennington Biomedical Tour Request Form

## About Our Campus Tours

Pennington Biomedical tours provide an inside look at our research mission in action. We highlight key areas across campus, including basic science labs, clinical research spaces, and program areas, to show how discoveries move from the laboratory to the community.

For **smaller groups (fewer than 20 participants)**, a single tour guide will lead the group through core spaces, sharing insights into both basic and clinical research.

For **larger groups (up to 60 participants max)**, groups will be split into smaller segments of up to 20 people. These groups will rotate through the same featured areas, with multiple presenters and guides providing a coordinated tour experience.

Our goal is to make each visit engaging, informative, and tailored to your interests—whether you're a student group, professional organization, or community delegation. Let us know your priorities, and we will do our best to customize your visit.

## Tour Availability:

Tours are typically offered **Wednesdays after 11:00 AM** and **Tuesday/Thursday afternoons after 1:00 PM**.

Requests outside these windows may be considered under **Special Requests** below.

## 1. Desired Tour Date(s)

- Preferred Date: \_\_\_\_\_
- Alternate Date(s): \_\_\_\_\_

## 2. Preferred Time(s)

- Time Window(s) Available: \_\_\_\_\_

## 3. Group Information

- Number of Attendees: \_\_\_\_\_
- Approximate Age Range: \_\_\_\_\_

#### 4. Special Interests / Areas of Focus

(Examples: nutrition research, pediatric studies, exercise science, clinical trials, labs, etc.)

---

---

---

#### 5. Mobility or Accessibility Needs

(Examples: wheelchair access, limited walking distance, assistance required, etc.)

---

---

---

#### 6. Contact Information

- **Primary Contact Name:** \_\_\_\_\_
- **Email:** \_\_\_\_\_
- **Phone Number:** \_\_\_\_\_

#### 7. Special Requests or Notes

(Include requests for dates/times outside typical availability or other details.)
